I'm a software engineer with over 8 years of experience solving complex business problems that save time and money through leadership, collaboration and software automation at scale.

Experience

Amazon

Frontend Engineer (May 2022 - Current)

Impact: saved Amazon millions of dollars and months of developer effort each year by ensuring all North American and European Amazon retail marketplaces, Prime Video, and Fire TV were legally-compliant with the GDPR and new CCBA privacy laws.

Skills: React.js, TypeScript, JSP, Java Spring, NoSQL, AWS (ECS, Lambda, SQS, DynamoDB, S3)

Amazon Web Services (AWS)

Frontend Engineer/Lead Consultant (May 2020 - May 2022)

Impact: saved a pharmaceutical company over 10 million dollars and 25 million hours of labor each year with an automated translation solution. Automated complex accruals and "chargebacks" for 3 enterprise customers that owned thousands of AWS accounts and spent over 10 million dollars each month.

Skills: React.js, TypeScript, JavaScript, Node.js, GraphQL, REST, NoSQL, AWS (Lambda, Textract, Translate, S3, SQS, DynamoDB, Cognito, CloudFront, Athena)

AWS Certifications: Professional DevOps Engineer, Professional Solutions Architect, Associate Developer, Associate SysOps Administrator, Associate Solutions Architect, Cloud Practitioner

Revel Gatherings

QA Engineer - Part-time contract (May 2022 - Jan 2023)

Impact: setup a stable integration testing suite to save hours of developer time each week debugging unstable tests

Skills: React.js, TypeScript, JavaScript, GraphQL, REST, Cypress

Make School

Frontend Engineer (Oct 2018 - May 2020)

Impact: ensured over 400 students learned software engineering and received jobs with a six-figure salary by building education software for students and staff, including applications for managing attendance, online courses, grades and financial aid.

Skills: React.js, GraphQL, REST, Ruby on Rails, SQL, PostgreSQL

Beastgrip

SVP of Business Development and Engineering (Jan 2015 - Oct 2018)

Impact: raised over \$250,000 through crowd-funding by writing all product, website and marketing content. Built relationships with Apple, Moment, Lumecube and Academy award-winning directors that resulted in several feature-length films and music videos. Led engineering team of 5 on the Beastcam iOS application and a custom e-commerce platform.

Skills: React.js, TypeScript, Node.js, AWS (Elastic Beanstalk, CodePipeline, RDS, CloudFront)

Open source

Accomplishments: created an official Amazon Location Service [code sample](#), built a [documentation site](#) for Mail For Good, released [4 NPM packages](#) and am currently building an open source event management platform called [Cobra Events](#).

Skills: TypeScript, JavaScript, Node.js, Elixir, Phoenix, AWS (S3, CloudFront, ECS, ECR, EC2)
